

WE DELIVER. ALL PRODUCTS, GRADES AND SERVICES.

**WITTE HiTEMP. Your specialist for
heat resistant stainless steel.**

HiTEMP

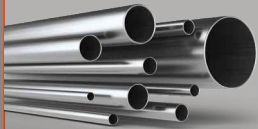

WITTE HiTEMP

The Heat is on.

witte-hitemp.com

Our products? Resistant in heat – confident in competition.

Pipes

1.4828 welded:
EN 10217-7 / EN 10296-2
SEW 470
ASTM A 380/ASME SA 312

1.4841 seamless:
EN 10216-5
SEW 470
ASTM A 380

1.4845 seamless:
EN 10216-5 / EN 10297-2
SEW 470
ASTM A 380/ASME SA 312

1.4878 seamless:
EN 10216-5 / EN 10297-2
ASME SA 312

Tees

EN 10253-4 A/B / EN 10253-3
ASTM A 403 || ASME B16.9
acc. to drawing

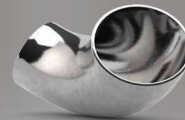

Reducers

concentric / eccentric
EN 10253-4 A/B / EN 10253-3
ASTM A 403 || ASME B16.9
acc. to drawing

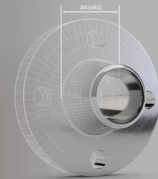

Flanges

EN 1092-1 || ASME B16.5
EN 1759-1
acc. to drawing

Elbows

seamless / welded
45° / 90° / 180°
BA2 / SR / BA3 / LR / BA5
EN 10253-4 A/B / 10253-3
ASTM A 403 || ASME B16.9
acc. to drawing

Turned parts acc. to drawing

Certified according to PED
and AD 2000-W0
Welding bevel according to
DIN 2559 F21/22 / ASME
B16.25

Our stock range

1.4828 || AISI 309

1.4841 || AISI 314

1.4845 || AISI 310S/H

1.4878 || AISI 321H

Our supply range

1.4550 || 347/H

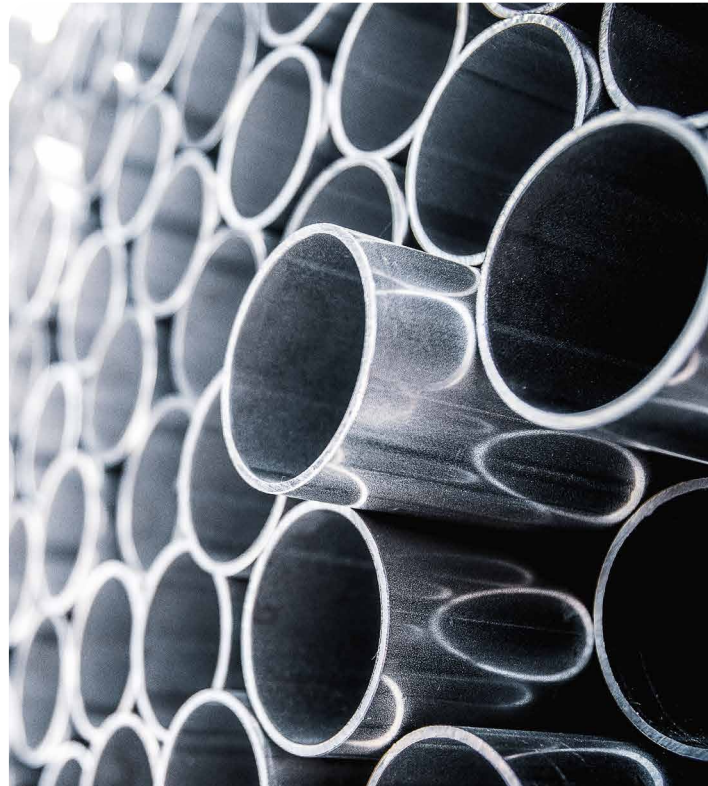

1.4876 || Alloy 800H

further heat resistant stainless steels

WITTE HiTEMP. The Heat is on.

WITTE HiTEMP offers:

- a comprehensive range of heat resistant pipes, elbows, flanges and more
- 4 heat resistant stainless steels always in stock
- even more in our supply range
- own machine shop for custom made parts and small series
- a big team of competent, committed and flexible employees

The WITTE machine shop: customized solutions.

Even if a part is not in stock, it doesn't mean we can't deliver it. In our machine shop we modify flanges, fittings and bends – according to your wishes and specifications. In order to meet the steadily growing demands of the market, we are constantly expanding our machinery, training our employees and, of course, we are certified according to PED and AD 2000-WO.

In addition to the machining of weld fittings and flanges, we also manufacture parts made from full bar material.

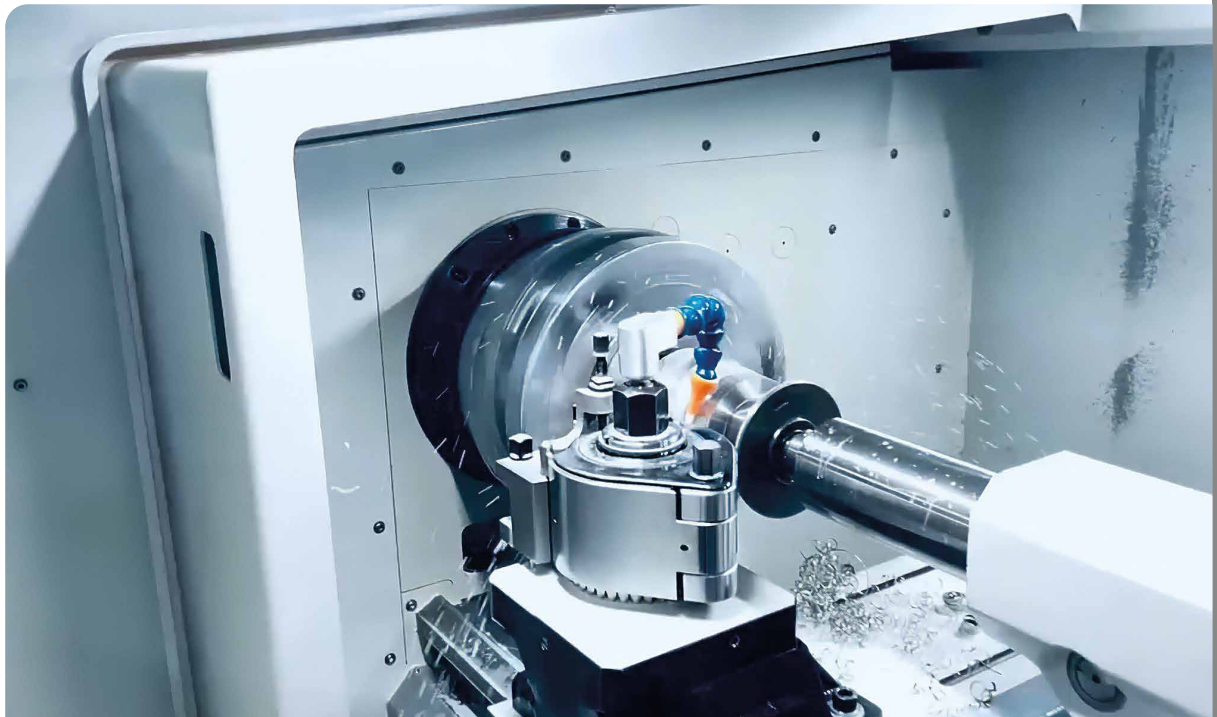

Machining:

- turning of the connection dimensions (S) – from ½" to 24"
- cutting of pipe bends to any angle – from ½" to 24"
- surface treatment of flanges – Rz, Ra 0.5 to 160

Manufacturing:

- concentric and eccentric reducers from ½" to 12"
- tees from ½" to 12"
- threaded parts (welding nipples, double nipples, sockets) from ½" to 4" – R, Rp, G, NPT, BSP/R, BSPT/Rp, BSPIIG
- hexagonal parts (such as hexagonal plugs, hexagonal double nipples) from ½" to 4"

We manufacture individual parts and small series with a dimensional accuracy of 0.1 mm. Other parts as per drawing.

We are WITTE. The Steel Partners.

Three strong companies, one big goal:
Your complete satisfaction.

WITTE TUBE
The Substance of Steel.

WITTE FLANGE
The Flange People.

WITTE HiTEMP
